Last week we stated that the second lecture of the course would be delivered on Tuesday evening, Jan. 3. A few citzens met at the Presbyterian Church on that evening, and agreed to adjourn till this (Thursday) evening, Jan. 5th. Rev. T. W. Tiprox will lecture - subject "Humbug." Hereafter the lectures are to be delivered regularly every Thursday evening.

Ladles' Festival. The Ladies' Festival took place as announced, at the Brownville House, on Saturday last, and was the occasion of a delightful re-union. The company was comferiably numerous and every one fully entered in the spirit of enjoyment which prevailed throughout the evening. The supper was pronounced by all who parteck as remarkably good. Mr. Tip- whatever. ton made a few appropriate remarks which were listened to with great attention. The proceeds are for the benefit of the Congregational Church, and, we believe, the ladies who got up this charming soirce, have no cause to complain of the amount received.

Hon, E. ESTABBOOK, Hon. S. G. DAI-LY, and Hon. ANDREW JOHNSON, will please accept our thanks for Cougressional documents.

THE GLOBE, The Official Paper of Congress. I shall publish the Duily Globe, and the Congres-MARCH TRAFFOR & HOLLYRID

sional Globe, and Appendix during the next session of Congres. The Daily Globe will contain a report of the debates in both branches of Congress, as taken down by reporters, equal at feast, to any corps of short hand writers in this or any other country. When the derates of the day do not make more than forey-five columns, they shall appear in the Globe of the next morning, which will contain, also, the news of the day, together with such editorial artieles as passing events suggest.

The Congressional Globe and Appendix, will contain a report of all the debates in Confress, revised by the Spenkers, the Messages of the President of

the United States, the Annual reports of the heads of the Executive Departments, the Reports of committees of Congress on important subjects of genoral interest, the Laws passed during the session, and copious indexes to all. These will be printed on a double royal sheet in book form, royal quarto size, each number containing sixteen pages, ever-aging 2,397 words per page. The whole will make between 1,700 and 2,000 pages. It is believed that no book has ever bean published at so low a rate. Last year I advertised in the Duily Globe for six months, and in about one hundred other newspapers in the United States, a reward to any person of two handred and feety-five dollars, who would prowas produced. The large number of copies subscribed for by Congress enables me to afford the debates to subscribers so cheap.

The Congressional Glahe and Appendix pass free

through the maits of the United States, as will be seen by reading the following joint resolution pas-sed by Congress August 6, 1852 : Joint Resolution Providing for the Distibution of the Laws of Congress and

T. I. GODDIN, Proprietor. September, 29, 1859. A History of all Religions

Origin, Development, Doctrines and Government of the Religious Denominations in Europe and the United States, With Biographical Sketches of Eminent Divines, by Samuel M. Smucker, LL. D. Published by Duane Rulison, Quaker City Publishing House, 33, South Third Street, Philadelphia.

The subject of Religion and the Deetrines of sects must always have an absorbing interest for the thoughtful observer, and a work which affords the sired information, in a convenient and accessible form, at a moderate price, has been urgently demanded, and will be sought for with avidity, and must amand a large sale, In the present work, the origin, development, doctrinal belief, Church Government and peculiari

ted in a style clear, compendious and accurate, and Boots, will afford all the information which cured with great difficulty and expense, and much labor and research, from the larger polemical works Dr. Smucker has evidently prepared this work with much care, and it exhibits great ability and learning. The articles on the different religious are

ay impartially written, and show the careful study of an unprejudiced and sound mind; and the importance and value cannot be too highly estimated generally at heart and it will obtain f such superior and unbiassed effort in a work of this kind, as too often, those pretending to give correct information upon such subjects are prejudiced in favor of some particular sects or denominations. Mr. Rulison has brought out this great work in a very handsome form, and the public is indebted to illa for a very valuable, instructive and useful book. The price, \$1,00, is remarkably low for such a work. and in order that it may have a rapid and extensiv circulation, he will send it to any address, accompa-nied with a valuable Gift, on the receipt of the pric

Arnold's Combined Grinding Mill Corn and Cob Crusher, and Corn Sheller. Three valuable machines in enc.! Thinks a new in-

ention, and one that is well worthy the attention of stion has been pronounced by those who have the will n use to one of the best ever made, and the great valnesof this combination will be readily seen when the ract is considered that such mischine makes is necessity for the other. Thus: a Mills makes a necessity for a Sheller, and Sheller for a Mill, etc.

Being adapted to the use of the farmer, by house power, as a farm implement it barcely has adapted to It is also adapted to steam and water or wind power

is capable of granding from the to ten bushe per our, requiring from two to three horse power, argori-og to the quantity and quality or the work done. it grinds sufficiently fine for family use, making a supermy untiete of hand, leaving it round and lively. which is indispensable for first bread or pudlings. Recry one will be as solished at the difference in this reapect in favor of the meat made in this Millicommerso with that mude in any stone unit. They have and to make the trial to be convinced.

It will shell first to daily bushels per hour, and will risd and shell at the same time. It will crush afteen to twenty bushels; or corwand to per hour, and it will crush and grind at the agone It is light now partable, weighing thre hundred bounds nd occupying a space of loss than two feet by three

The grinding surfaces are very durable, being finds et froe as hard as bardened end after, and when wern o-o-can be replaced without the aid of a mechanic, at thu riffing cost of one dollar and fifty cents, thus avercomng entirely the great objection to iron mills. Farticus ar attention is called to this feature in the Milly as he difficulty of replacing grinding surfaces to Iron mills when worn out is an objection to them that has allways been urged with great force, and has bad the effect e prevent thousands from purchasing, who etherwise could be glad to do so. That objection is entirely dens way with this mill. Miliers will do well to examine this Mill, there tedept it for a feed mill, as the grinding our aced are redaced at a much less cost than is required to hopp a Stone Mill in order, to say nothing of the great saving in power and cost of Mill.

An examination of this mill is earnestly sollined, as it must be seen in operation to be fully understood and Cards of direction are aftached to each mill, which will enable shy one to set up and operate them without
